Vent-A-Hood® Launches Redesigned Web Site

Product catalog goes on-line

RICHARDSON, Texas – Vent-A-Hood®, the company that created the modern residential range hood, has launched a redesigned web site that features the company's entire product catalog at www.ventahood.com. New photography, improved design and navigation, and more consumer-friendly features will help more kitchen designers and homeowners choose the best range hood products for their luxury kitchens.

"The new site gives consumers the same information we've been giving dealers in our nationally-accredited training program," said Blake Woodall, director of sales for Vent-A-Hood. "This way everyone can make more informed decisions about the best hood and venting power needed for a particular range."

Designed by C. Pitman Baker & Associates, Inc., in Irving, Texas, the home page features more buttons to navigate to desired information. A search tool also was included to locate hood styles by part number, and the overall look compliments Vent-A-Hood's current product catalog and other marketing materials.

"Our goal is to make the shopping, design and ordering of our luxury hoods as convenient as possible," Woodall said.

About Vent-A-Hood:

Founded in 1933, Vent-A-Hood, based in Richardson, Texas, is the oldest manufacturer of residential range hoods in America. Each product manufactured by Vent-A-Hood is individually engineered for performance in addition to style. Vent-A-Hood products are sold in all 50 states as well as Canada. For more information, please visit www.ventahood.com.
